

VIRACON®
GLASS IS EVERYTHING™

VIRACONGLASS

DOWNLOAD OUR FREE MOBILE APP TODAY!

KEY FEATURES:

- + *Transmitted and reflected glass color*
- + *Exterior and interior viewing perspectives*
- + *Product performance information*
- + *Dynamic glass sizing*

VIRACONGLASS FEATURES:

The **ViraconGlass** app* offers different building types, heights, and lighting conditions to view your architectural glass products. You can select from 25 different coatings on 15 substrates to find the right glass for your next project. You can also compare different glass products side-by-side along with the performance data for each. Concerned about minimum and maximum sizes for a specific glass product? **ViraconGlass** allows you to understand size capability by dragging a corner or entering the dimensions manually. Visualize your next landmark project by downloading the **ViraconGlass** app today!

Architectural Glass Solutions for Your Next Landmark Project

*The ViraconGlass app is only available on the iPad®.

**Viracon strongly recommends using glass samples and mock-up wall evaluations to assist in making final glass selections.
