

Viracon Mock-up Wall

Experience your glass on our full-size mock-up wall. Designed to showcase glass in real-world conditions, our mock-up wall features large viewing areas of 40" x 76" and 40" x 30", with 5 openings for vision glass and 5 openings for spandrel.

Why Use the Viracon Mock-up Wall?

- Compare multiple coatings side by side
- Assess different substrates, clear, low iron or tints
- Evaluate different print patterns and enamel colors
- View vision and spandrel glass at the same time
- Experience how your glass looks from both interior and exterior view points
- Observe real-time changes in glass appearance throughout the day
- View the glass with the design team at the same location

The mock-up wall is located on the Viracon campus in Owatonna, MN. While you visit, see how your project is manufactured on a factory tour.

Make confident design decisions with an immersive, full-scale viewing experience!

[Contact](#) your Viracon sales representative or Viracon's Architectural Glass Studio to schedule your viewing.
